Wood Plastic Composite (WPC) is a composite of highly refined bio-fiber and polymer resins (HDPE). WPC enjoys some of the best qualities of wood and plastic. It looks like natural wood, but with much higher endurance and performance.

To ensure the excellent quality and safety, we insist to use HDPE plus dried bio-fiber with safe high quality chemical additives.

People can benefit from WPC by following attributes:

Natural wood look

- ◎Low maintenance
- ◎Long Lifespan
